Next Generation Water Filtration

SENTINEL ELITE Multi Media Water Softener

✓ **Clack QC WiFi**
Experience the perfect synergy of reliability and innovation with the CLACK QC Wi-Fi valve with United Water Softeners ELITE CONNECT™ system, the most advanced connected water softening solution on the market. Customers can effortlessly log in via the app to monitor their valve's usage, cycles, and performance in real-time, ensuring optimal efficiency for their home's water treatment. For added convenience, United Water Softeners provides remote monitoring along with free diagnostics and adjustments upon request, delivering proactive support and peace of mind without ever leaving your home.

✓ **Reinforced Fiberglass Tank**
Freeze Resistant Reinforcement

✓ **1" Manifold Pipe**
High Flow Throughput

✓ Our hybrid water softener utilizes a premium mixed blend of 8% blonde and 10% black cross-link resins, delivering exceptional longevity with a service life of up to 25 years, superior softening by efficiently removing calcium, magnesium, and other hardness minerals for silky-smooth water, and effective ammonium ion reduction to minimize ammonia-related issues. This innovative combination enhances resistance to chlorine and oxidation, reduces maintenance needs, and ensures consistent performance with reliable, high-quality softened water for years to come.

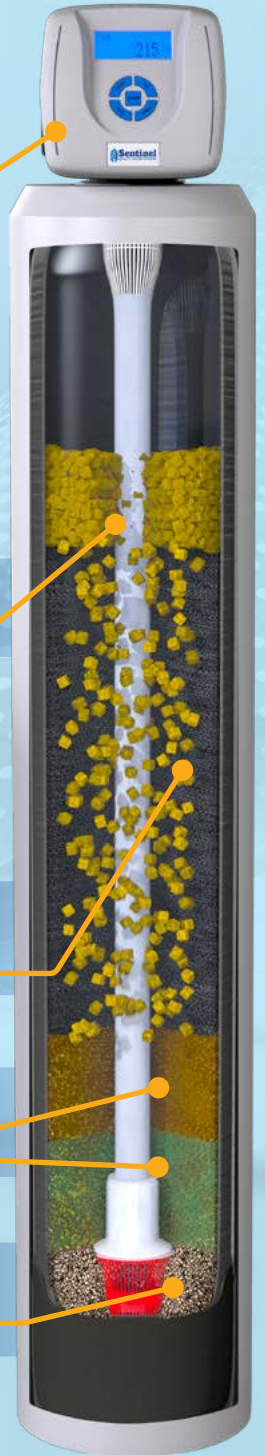

AQUACARB ELITE Multi Media Water Conditioner

✓ **Cubulation-K5**
Arsenic Removal. Hinder Bacteria Growth

✓ **High Grade Catalytic Carbon Media**
Chlorine, Chloramine, Trihalomethane, Smell and Odor Removal

✓ **Jade X NG/S**
Micro-plastics, Heavy Metals, Sediment Removal

✓ **Clarifying Gravel**
For Efficient Distribution and Filtration
